2. Add the tag line 'ONE STOP FOR STARTUP FOUNDERS'  below the logo
3. Move 'by Northville Consulting group' below the above changes
4. Change this sentence to 'From Day Zero to Series A, we provide elite expertise in Compliance, Accounting, Marketing, Strategy, and Investor funding support to help founders launch and scale. You build the vision; we handle the execution.'

From Day Zero to Pre-Seed, we provide the elite operational, financial, and digital infrastructure founders need to launch, scale, and secure funding. **You build the vision; we handle the execution.**

COMMON QUESTIONS

How much does incorporation cost?

How quickly can you build my pitch deck?

Do you work with international founders?

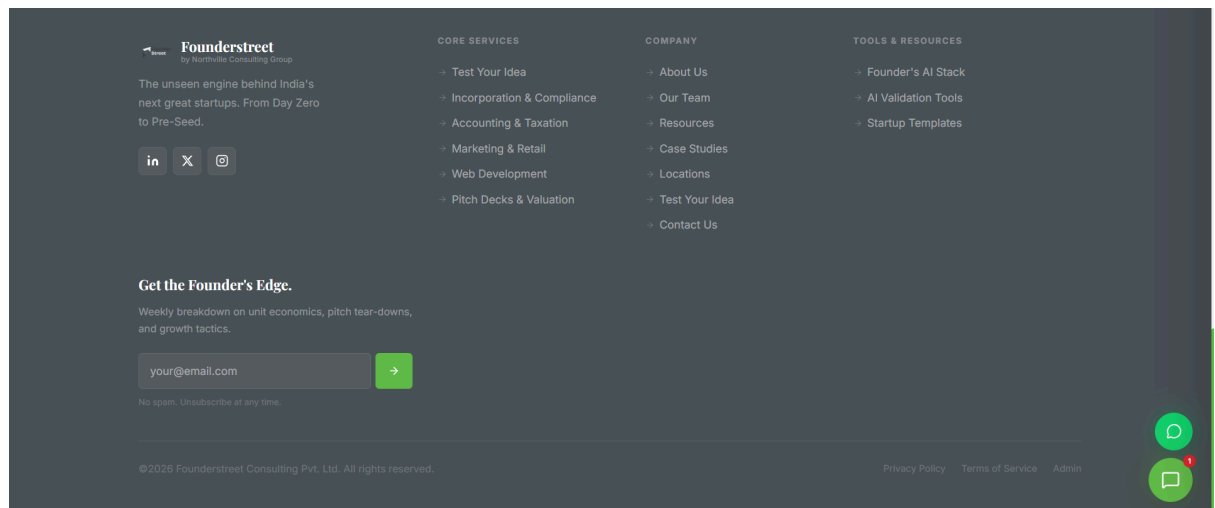

What's included in the free health check?

Answers to these questions are

1. How much does a Company incorporation cost : I think we can put starting price as 9,999
2. How quickly can you build my pitch deck : 24 hours
3. Do you work with international founders : Yes

We can remove the free health check point

12. In the footer, the name of the Company is not founderstreet consulting Pvt Ltd . It will be Northville Consulting LLP. There is no trademark. Also core services need to be same as point number 8 above. Additionally remove the get the founder's edge section in entirety.

13. When I click on Privacy policy and terms of services in the bottom right the email ID's mentioned such as privacy@founderstreet.com. & legal@founderstreet.com... Are incorrect.

It should go straight to hello@northvilleconsultinggroup.com. Additionally update the social media icons in this website.

14. In the resources section ,let's get 2 articles on each topic. Neksha and Chanpreet from our team can do the research work and share. We should add a disclaimer that the articles are for knowledge sharing and do not constitute a professional opinion.

27. Let's remove pricing specifically . we can just mention pre-seed also and prices starting at 3000/month

27.

The image shows three pricing packages for startups, arranged horizontally. The 'Seed' package is for pre-revenue startups at ₹8,000/month, including monthly bookkeeping, GST return filing, bank reconciliation, annual ITR filing, and email support. The 'Growth' package is the 'Most Popular' option for revenue-generating startups at ₹18,000/month, including everything in Seed plus payroll processing, TDS deduction & filing, investor MIS reports, priority support, and quarterly strategy call. The 'Scale' package is for pre-Series A startups at ₹35,000/month, including everything in Growth plus virtual CFO services, fundraising model, board reporting, due diligence prep, and a dedicated CFO partner. Each package has a 'Get Started' button.

28.

What is the pricing structure?

We offer three packages: Seed (bookkeeping + GST, from ₹8,000/month), Growth (adds payroll + TDS + investor reporting, from ₹18,000/month), and Scale (full Virtual CFO with fundraising support, from ₹35,000/month). Custom pricing for companies with more complex needs.

We can add a pre-seed package too and mention pricing starts at 3000/month.

29.

The image displays two case studies. The first, 'Early-Stage D2C Brand' (Consumer Goods (D2C)), describes a founder's challenge of having a validated product idea but no legal entity, accounting, or digital presence, needing to go from zero to operational in 30 days. Services used include Company Incorporation, GST Registration, Shopify Store Build, and Meta Ads Launch. Results include incorporation in 8 days, ₹2.4L in month 1 revenue, and a live store in 3 weeks. The second case study, 'B2B SaaS Startup' (B2B Software), describes a pre-seed founder with a working MVP and early traction but no pitch deck, financial model, or investor network. Services used include Pitch Deck Creation, Financial Projections, and Investor Matchmaking. Results include a 12-slide pitch deck completed in 2 weeks, a 5-year financial model built, warm introductions to 6 investors, 3 meetings secured, and a term sheet in discussion.

30.

Add real case studies from the deck and NCG website <https://www.founderstreet.in/services/marketing-> vishi to update the services page. However, on first impression, we have amounts mentioned in Dollars and Euros here instead of INR, Also numbers like ROAS etc are not accurate and can be removed

31. Can we remove the pricing here too. Vishi can update the text.
